

# Quick start

Just 4 Easy Step in a minute

## Step 1: Link required files

At first you need to put required files beside your page:

Go to "source/compressed" and copy all javascript files to "js/cute" directory beside your page.

Go to "source/assets" and copy "cute-theme" folder beside your page.

Go to "source/assets/style" and copy "slider-style.css" to "style" directory beside your page.

Then add following html to the <head> of your page.

```
<script
src="http://cdnjs.cloudflare.com/ajax/libs/modernizr/2.6.1/modernizr.min.js"
type="text/javascript" charset="utf-8"></script>
<script src="js/cute/cute.slider.js" type="text/javascript" charset="utf-8"></script>
<script src="js/cute/cute.transitions.all.js" type="text/javascript"
charset="utf-8"></script>

<link rel="stylesheet" href="style/slider-style.css" type="text/css"
media="screen" charset="utf-8"/>

<script
src="http://cdnjs.cloudflare.com/ajax/libs/respond.js/1.1.0/respond.min.js"
type="text/javascript" charset="utf-8"></script>
```

## Step 2: Add Slide Style

Add following css to the <head> of your page.

```
<style>
    #my-cute-slider{
        position:relative;
    }

    #slider-wrapper{
        position:relative;
        min-width:300px;
        max-width:800px;
        margin: 0 auto;
    }
</style>
```

## Step 3: Add Cute Slider Markup

Add following html to the <body> of your page:

In this code determines that the slide images are located in "images" and the thumbnail images are in "images/thumbs" beside your page.

```
<div id="slider-wrapper">
<div id="my-cute-slider" data-width="800" data-height="350" data-vpwidth="900" data-
vpheight="400">
  <ul data-type="slides">
    <li data-delay="4" data-trans3d="tr28" data-trans2d="tr1">
      
    </li>
    <li data-delay="4" data-trans3d="tr29" data-trans2d="tr1">
      
    </li>
  </ul>
  <ul data-type="controls">
    <li data-type="circletimer"> </li>
    <li data-type="next"> </li>
    <li data-type="previous"> </li>
    <li data-type="slidecontrol"> </li>
    <li data-type="bartimer"> </li>
  </ul>
  <div class="br-shadow"> </div>
</div>
</div>
```

## Step 4: Setup the Slider (Turn it on)

Add following js at the end of <body> in your page:

```
<script>

  var myslider = new Cute.Slider();

  myslider.setup("my-cute-slider" , "slider-wrapper");

</script>
```

It's done. Let's go!
